

Two ways to work with us. Every number in two pages.

Pay us per shipment and stay seller of record, or sell to a wholesaler and let our licensed retail partner take title — in which case you pay us nothing at all. Same warehouse, same carriers, same compliance stack either way.

YOUR ALL-IN COST TO SELL THROUGH THIS CHANNEL

\$0.00

per order, per month, per anything · one-time site build \$295

WHAT YOU GET PAID

- **Your wholesale price**, invoiced to and collected from your distributor on your existing terms — no deductions, no reconciliation, no chargebacks.
- **Volume that would not otherwise exist** — DTC orders nationwide, optional listing on BroBasket, BoozeFinders and The Bounty Basket, and depletion reporting so it shows up in your distributor numbers.

HOW WE GET PAID, AND WHAT WE ASK

- **We make our money on the retail margin** — the spread between our landed cost and the shelf price we set. That is our entire compensation on this channel. Nothing is invoiced back to you.
- **Shipping is passed through to the consumer** at checkout at our negotiated rates. Some partners elect to subsidize freight on their end, or lift the shelf price to absorb it, to raise conversion and basket size — your call, set in Exhibit A.
- **Three-tier by design**. Title passes producer → wholesaler → licensed retailer → consumer, real invoice at every step — no consignment, no bailment. Margin is fixed in Exhibit A at contracting.
